CARBON FOOTPRINT

MOLYMET and SUBSIDIARIES

YEAR 2025

Geoinvest Limitada informs that the Company Molibdenos y Metales S.A., RUT 93.628.000-5, address: Camino Nos a Los Morros 66, San Bernardo, Santiago, Chile, and its subsidiaries MolymetNos, Molynor, Molymet Belgium, Molymet Germany and Molymex, achieved the quantification of the Organizational Carbon Footprint based on **ISO 14.064-1:2018 and GHG Protocol** standards for the base year 2025. The result in tons of CO₂e is shown below:

TOTAL, GHG Emissions (market-based method) year 2025: 261.632,0 tCO₂e

TOTAL, GHG Emissions (location-based method) year 2025: 280.082,0 tCO₂e

Verification audit conducted in accordance with: ISO 14064-3:2018.

Focus and Boundary: Operational control approach for the activities performed within Molymet and its associated subsidiaries in Chile and abroad.

Assurance Level: Limited

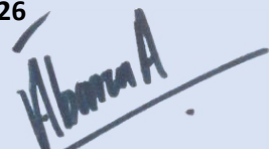

Materiality threshold: 5 %.

Audit date: February 19th, 2026.

Final Report date, March 2026 – V02

Exclusions: Capital goods (Cat. 3.2 GHG Protocol) and Investments (Cat. 3.15), as they are not relevant to the Product Carbon Footprint or the objectives of the users envisaged in the measurement. Downstream transportation (Cat. 3.9) and Downstream processing of marketed products (Cat. 3.10), justified by the cradle-to-gate limits of the study, the confidentiality of downstream processes that limit data collection, and the ability to influence reductions. Impact of commercial offices with all their sources, as they represent less than 0.1% of the GHG inventory (Molymet Beijing Trading C.O. Ltd., Molymet Do Brasil, Molymet Services Ltd., Molymet Corporation, Strategic Metals B.V.B.A.). The following emission sources are considered not applicable to Molymet: Leased assets "Upstream" (Cat. 3.8), Use of marketed products (Cat. 3.11), Final disposal of traded products (Cat. 3.12), Leased assets "Downstream" (Cat. 3.13), Franchises (Cat. 3.14), and Investments (Cat. 3.15).
